

ORDERING SHOES BY MILLION PAIRS

[Republican A. P. Leased Wire]
LONDON, Aug. 27.—Orders for 25,000,000 pairs of shoes for the British, Serbian, French, Russian, Italian and Belgian armies have been received by British manufacturers since the outbreak of the war.

One fourth of the total, or more than 6,000,000 pairs a week have been supplied by the workmen of Northampton, the chief seat of the English shoe manufacture, an hour's train ride northwest of London. The manufacturers of this place are turning out a second installment of 3,000,000 pairs of footwear for the Russians, this time boots known as the Cosacks.

Owing partly to their pre-occupation with army contracts, partly to depletion of their staffs of male operatives, and partly to restrictions imposed by the government on the disposal of tanners and merchants of leather suitable for army purposes, boot and shoe manufacturers are finding considerable difficulty in supplying the demands of the civilian market.

REFUGEES POURING IN KAVALA PORT

[Republican A. P. Leased Wire]
KAVALA, Greece, Aug. 27.—The effect of the Bulgarian occupation of Doxato, the scene of alleged atrocities of which the Greeks accused Bulgarians in the last war, is prodigious. Kavala is the theater of amazing scenes of disorder. Thousands of refugees are pouring into this port from the hinterland and crowding the steep, narrow streets until they are impassable. The streets are littered with every kind of household goods, flung away by the owners fleeing before the advancing Bulgarians as before the plague.

These goods were abandoned by the fugitives upon their discovery that the means of escape from the city by sea transport are inadequate. Small boats, dangerously overloaded with women and children, are rowing aimlessly about the harbor, their occupants seeking a place aboard some ship regardless of its destination. Complete panic prevails.

TO GIVE "AIDA" IN BASE BALL PARK

SAN FRANCISCO, Aug. 27.—"Aida," that story of love and tragedy in ancient Egypt, told in song, is to be presented here amid the modern surroundings of a base ball park on September 20, when the opera is given by famous operatic stars for the benefit of the Youth's Directory of San Francisco and a fund for the preservation of California missions at Elwing Field. The opera will be sung in Italian by artists from the Metropolitan and other opera companies.

The production of the opera will be a grand affair, according to present plans, more than 1,000 persons taking part. The chorus alone is to number 500, the ballet 75 and there are to be 200 musicians, the others being the stars and the many supernumeraries necessary to complete the enormous cast. It is planned to stage the opera on a scale never hitherto attempted in the United States. The opera will be given in full.

Among the famous stars will be Emmy Destin as Aida, Leone Zinovieff, the Russian tenor is to be cast for the part of Rhamades, a part he assumed in the production of the opera at the Pyramids in 1911; Clarence Whitehall, American baritone, is to be Amnaron; Henry Weldon, basso from the Boston opera, is to be cast for the part of Ramphis.

[Republican A. P. Leased Wire]

Today's report says these efforts failed.

PLOT TO ABDUCT SON OF HARRIMAN FOILED

[Republican A. P. Leased Wire]
BOISE, Idaho, Aug. 27.—Three men, said by St. Anthony, Idaho, authorities to have been implicated in a plot to abduct Roland Harriman, 15-year-old son of Mrs. E. H. Harriman, widow of the railroad magnate, and hold him for a heavy ransom in the fastnesses of the Idaho mountains, were arrested tonight at St. Anthony, according to word received here. Two of the men, Mark A. Lufkin and Davis McLoey, are alleged to have confessed to the plot. The third man, Ralph Cuslet, denied any knowledge of the alleged abduction plot.

Mrs. Harriman and Roland, it was said, were to have arrived at their ranch on the upper Snake river about August 18, but postponed their western visit because of the threatened railroad strike.

LENDING MUCH MONEY
[Republican A. P. Leased Wire]
WASHINGTON, Aug. 27.—In a statement analyzing results of the federal reserve board's action a year ago in establishing preferential discount rates on commodity paper, Comptroller Williams says that on June 30 last, national banks were lending \$44,546,000 on cotton warehouse receipts, and \$79,749,000 on wheat, tobacco, and other commodities. Of the total New England banks were lending \$13,000,000; those of the eastern states \$38,000,000; southern states \$37,000,000; middle states \$25,000,000; and western states \$17,000,000. The result, the comptroller says, has been to give the farmer money at 8 percent instead of from 10 to 15 percent.

BULGARIANS PASS THROUGH KASTORIA

[Republican A. P. Leased Wire]
ATHENS, Thursday, Aug. 24. (Via London, Aug. 25, delayed).—Bulgarian cavalry has passed through Kastoria in the direction of Coroni and are continuing their broad sweeping movement, evidently intended to crumple the Serbo on Saloniki. The French and British ministers tonight asked Premier Zaimis how far the Greek government proposes to countenance the Bulgarian advance, without resistance, pointing out that it would be of no military interest to the entente to defend central Thessaly from invasion, as Saloniki was supplied from the sea and could not be cut off by land.

The embarrassment of the Greek government grows hourly in the face of popular resentment against the Bulgarian invasion. The Venizelist organs criticize the inaction of the government. M. Pachitch, former Serbian premier, has arrived here on his way to Saloniki.

**IF WAR COMES
NAVY NEEDS MEN**
[Republican A. P. Leased Wire]
SAN DIEGO, Cal., Aug. 27.—"In the event of war the United States navy would need at once 175,000 trained men," was the statement made today by Rear Admiral William F. Fullam, commander-in-chief of the Pacific reserve fleet, in an address delivered here on board the cruiser South Dakota to the civilian volunteers who are undergoing naval training.

The admiral expressed surprise that the people on the west coast took so little interest in the unprotected state of their coast line and declared that it was time they awoke to the necessity of adequate preparation. He thanked the volunteers for the spirit they had shown in advancing a movement, which he said he believed would help awaken intelligent popular interest in the navy.

The South Dakota will depart tomorrow and on Wednesday the civilian sailors will be given a real smell of powder during big gun practice.

TO GIVE FORTS TO BULGARS
[Republican A. P. Leased Wire]
LONDON, Aug. 28.—"Despite German assurances to Greece that Serres, Drama and Kavala would not be occupied by the Bulgars," says Reuters' Saloniki correspondent, "an order sent last Tuesday to the commander of the forts at Kavala said if the Bulgars advanced the forts were to be handed over to them. Friday the Bulgars entered the town and took possession of the forts. British warships in the harbor then opened fire on the forts. But details of the results of the fighting are not permitted to be sent."

SCOUTING FORCE IS NOT EFFICIENT

[Republican A. P. Leased Wire]
NEWPORT, R. I., Aug. 27.—The war game just completed by the United States navy proved that under fairly favorable weather conditions an attacking fleet has excellent chance to land troops within twenty miles of New York, Rear Admiral Austin J. Tuley declared tonight. "Nothing of this sort would have been possible," he said, "if the defending 'blue' fleet had had an efficient scouting force."

"Destroyed" Ships Arrive
NORFOLK, Va., Aug. 27.—Nine ships of the "Blue" defending fleet, theoretically destroyed yesterday by an invading fleet in the navy game, arrived in Hampton Roads today. They will proceed to Tangier Sound, Chesapeake Bay, Tuesday, to give the civilian training crews target practice.

The vessels were the battleships Virginia, New Jersey, Maine, Kentucky, Louisiana, Alabama, Illinois, Kearsarge, and Rhode Island.

The civilian volunteers are being weeded out gradually and those who are proving themselves especially fit for the service have been appointed petty officers. According to the plan of the regular navy, the "rookies" were at sea but a few days before they began to prove valuable in maneuvering the ships.

**JOINT SESSION
MAY HEAR PLEA
FROM WILSON**
(Continued from Page One)

so complicated, one possible development depending upon another, that I cannot disclose what is in the president's mind. Of course, if the president's mind is set on a strike, Congress must endeavor to solve the difficulty.

Senator Kern would not deny that such a joint session of congress was in contemplation. It may be called for Tuesday, when a quorum of the house has been summoned to reach Washington.

Following the president's unprecedented visit to the meeting of the finance committee, democrats deviated from the task of polishing up the revenue bill to a discussion of the question relating to the railroad crisis. Among the senators present were Hoke Smith of Georgia, Stone, Williams, Hughes, Thomas and Simmons, chairman of the committee. All agreed that congress must abandon all ideas of adjournment until the railroad crisis is solved.

"I think the first thing congress should do in event of a failure of negotiations," said Senator Simmons, "is to enact some legislation to prevent an actual break between the railroads and the men. How this may be done I do not know, but I believe definite plans along this line already are being considered."

called, and will forward these to the chairman of their respective locals immediately upon arriving home, subject to release by telegraph.

Especially prominent among the printed instructions is the warning that the employees shall remain off company property once a strike is declared.

Insofar as could be learned, the plan of the brotherhoods to continue running supply trains to the Mexican border, enough passenger trains to keep necessary business moving, and possibly some milk trains, announced last week, had not been abandoned.

The sixty-four small lines employees whose grievances the railroad managers have declined to arbitrate would be included in a general strike order, it was understood.

Angered by their futile wait here, the men went to their hall today insisting that all save a few of them be permitted to go home and prepare for a strike. Had the president not been concerned in the negotiations, it was freely said, they would have voted today to withdraw from the negotiations immediately.

The plan finally adopted was ready for consideration when the meeting began. Every possible scheme that meant the saving of time in conducting a strike had been included. The committee of twenty-four, with the exception of the four brotherhood heads, was named from among general chairmen whose homes are within twelve hours of Washington. The brotherhood heads expect to remain here indefinitely if a strike comes and they want men about them whose homes are not too far away.

The proposal to stand by the president's plan in general, and particularly regarding the eight-hour day, was adopted amid wild applause.

Heads of the four organizations received the leaders from various sections of the country and passed out all of the detailed instructions regarding the conduct of the proposed strike. Copies of instructions were mailed to those committeemen who left for their homes last night.

After the last meeting today it developed that the brotherhood men have suspected for several days that they had three spies in their midst who were reporting regularly to the railroad heads.

Careful investigation convinced the brotherhood officials that they knew the trio and several speeches and reports were "planted" for them in the meeting. As the union leaders had expected, these reports soon reached the executives. In the subsequent meetings the alleged spies were upbraided roundly by several speakers, but they never were named.

Samuel Rae, president of the Pennsylvania railroad, tonight issued a statement which flatly announced that rather than give up arbitration they regarded it as better to face a strike. He declared that for the railroads to yield would result in a temporary postponement of the strike, and that the issue of arbitration at stake in the present situation would be left unsettled.

"These in brief," continued his statement, "are the reasons why the heads of the railroads with a full responsibility resting on them, as well as of their duty to the public and to their shareholders, have been forced to the conclusion that it is better to face the alternative of a strike than to surrender."

Mr. Rae went on to point out the history of the struggles between railroads and their employees, spoke of the depression, which he said had been followed by like demands from their employees, an added burden of \$200,000,000 to \$300,000,000 a year.

"Confronted by such conditions," he concluded, "what could the heads of the railroads do but refuse to yield, and then calmly but resolutely face the hostility of the situation in the full sense that their action will receive the unqualified endorsement and support of the business interests of the country and the public at large?"

L. F. Loree, president of the Delaware and Hudson, gave out a statement, referring to street demonstrations, that President Wilson on the condition in which the country was likely to find itself at the end of the European war, and pointing out that the country should remember that Germany and Austria would make "a tremendous effort to regain their old position when peace is declared."

He said there are thirty million industrial workers in the United States, and that American Federal Labor reports showed that in 1912 there were about 1,847,000 persons working under an eight-hour basis. It would be difficult, he declared, to figure the loss of productive energy and the increase in productive cost if the rest of the thirty million were put on an eight-hour day.

Preparing for Strike
CHICAGO, Aug. 27.—Preparations to meet a railway strike on short notice have been made by railway operating officials in Chicago while awaiting results of conferences between President Wilson and labor and railway leaders. It became known tonight. Conferences attended by the operating heads have been of an informal nature. Milk and express trains, a combination of mail coaches, baggage cars for milk and other perishable foodstuffs would be given precedence in event of a strike.

Railway officials here said skilled strike breakers are hard to find.
